

# *Honored by Experts. Honored to Serve.*

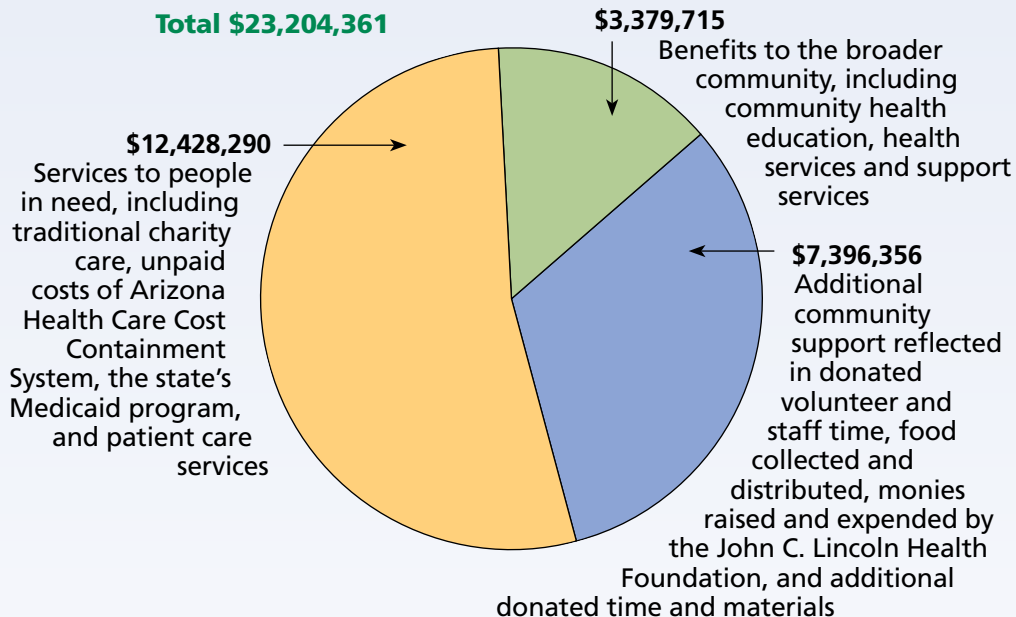

## 2007 Community Benefit Report\*

The not-for-profit John C. Lincoln Health Network has a rich history of medical excellence, individual care and community involvement. The Network provides care and community service for people in need as well as benefits to the broader community.

The Network's tradition of identifying unmet community needs and developing solutions enhances the community and builds sustainability. Our human service programs include Desert Mission's Food Bank, Children's Dental Clinic, Community Health Center, Marley House Family Resource Center, the Adult Day Health Care Center and the nationally accredited Lincoln Learning Center.

The Desert Mission Neighborhood Renewal was started as a grass roots not-for-profit effort by John C. Lincoln Health Network and area leaders to foster community development. Partnering with state, city and private entities, the group has led the drive to develop affordable housing and commercial business in North Phoenix.

This is how John C. Lincoln Health Network contributed to its community in 2007:
