

JOHN C. LINCOLN NORTH MOUNTAIN HOSPITAL
Phoenix, Arizona

Critical Care Physician Criteria/Skills List

Physician Name			
In making application for Critical Care Physician privileges, I certify that I have had training and experience in the diagnosis and treatment of the items checked, in addition to previously applied-for emergency privileges.			
Cardiopulmonary-cerebral resuscitation		Metabolic disease	
Shock		- nutritional evaluation and treatment	
- hypovolemic		- diabetic hypoglycemia	
- cardiogenic		- insulin therapy	
- traumatic		- endocrine illness	
- septic		- drug interactions	
- neurogenic (spinal)		Infectious diseases	
Cardiac disease		- sepsis	
- myocardial infarction		- antibiotic therapy	
- pulmonary edema		- infection control / asepsis	
- cardiac tamponade		- iatrogenic / nosocomial infections	
- arrhythmias		Hematologic diseases	
- acute valvular disorders		- blood component therapy	
- central & peripheral vascular disease		- coagulation analysis	
- vasopressor / vasodilation therapy		- immune suppression	
- hemodynamic analysis		GI disease	
Respiratory disease		- pancreatitis	
- acute respiratory failure		- GI bleeding	
- airway management		- liver disease	
- ventilator management		- acute abdominal crises	
- O ₂ therapy / PEEP		GU disease	
- asthmatic disease		- urinary retention	
- flail chest/ barotrauma		- pregnancy problems	
- bronchopulmonary infections / aspiration		- deliveries	
- drowning		Trauma/ Burns	
- pulmonary function analysis		- multisystem trauma management	
Renal disease		Pediatric Problems	
- prerenal, renal and post renal failure		- neonatal & pediatric resuscitation	
- acid/ base electrolyte (osmolality problems)		- seizures	
- indications for hemodialysis		- croup / epiglottitis	
CNS		Other	
- coma of all etiologies			
- seizure management			
- overdose management			
- intracranial pressure monitoring			
MODERATE/CONSCIOUS SEDATION - A drug-induced minimally depressed level of consciousness that retains a patient's ability to maintain a patent airway independently and continuously.			
In addition, I also certify that I have been trained and have experience in performing the following "Mandatory Manipulative Skills" checked at the places I have listed below:			
central venous line insertion		autotransfusion	endotracheal intubation
arterial line insertion		peritoneal lavage (when ordered by the surgeon)	CR cothytotomy &/or tracheostomy
insertion & monitoring of Swan Ganz*		parecentesis	IV lines & cutdowns for venous or arterial access
emergency cardioversion		thoracentesis	Sengstaken tube insertion
temporary cardiac pacing		thoracostomy	
pericardiocentesis			
* Provide documentation of experience in having performed 20 cases.			
Applicants Signature: By my signature below, I certify that my malpractice insurance will cover, to the dollar limits required by the Medical Staff Bylaws, my exercise of the above requested privileges:			Date

Criteria for Granting Privileges
CONSCIOUS SEDATION

PURPOSE and DEFINITION

To provide guidelines to Medical Staff members who apply for privileges to administer conscious sedation.

Conscious sedation is a drug-induced minimally depressed level of consciousness (LOC) that retains a patient's ability to maintain a patent airway independently and continuously. The patient is able to respond to physical and verbal stimulation.

Members of the Medical Staff shall be privileged to administer conscious sedation.

INITIAL REQUEST – CRITERIA FOR GRANTING PRIVILEGES

Qualifications and competency requirements for privileges to administer conscious sedation by an applicant at the time of appointment to the Medical Staff include:

1. ADULT Patients
 - A. Signed acknowledgment that the applicant has reviewed and understands the John C. Lincoln North Mountain Hospital Patient Services Policy, Conscious Sedation. **AND**
 - B. Training and education during residency, fellowship or continuing medical education courses that include:
 - i. Evaluation and care of patients receiving conscious sedation and a course of study that includes conscious sedation medications; **OR**
 - ii. Documentation of at least five (5) procedures performed during the past two years in which patients have received conscious sedation.

2. PEDIATRIC Patients
 - A. Signed acknowledgment that the applicant has reviewed and understands the John C. Lincoln North Mountain Hospital Patient Services Policy, Conscious Sedation; **AND**
 - B. Current Basic Life Support, or equivalent certification or training; **AND**
 - C. Training and education during residency, fellowship or continuing medical education courses that include:
 - i. Evaluation and care of pediatric patients receiving conscious sedation and a course of study that includes conscious sedation medications; **OR**
 - ii. Documentation of at least five (5) procedures performed during the past two years in which pediatric patients have received conscious sedation.

MAINTENANCE OF PROFICIENCY TO RENEW CONSCIOUS SEDATION PRIVILEGES

Practice shall meet acceptable standards for performance at John C. Lincoln North Mountain Hospital as determined by the applicable clinical department.
