

Child Life Wish List

Thank you for your interest in donating to the Child Life Program at John C. Lincoln Deer Valley Hospital. All donations are distributed to our pediatric departments and are used in the playroom or handed out as gifts for rewards, birthdays, or other special celebrations. Play is a child's world, which is why we try to provide as many different play opportunities as possible. Developmentally appropriate toys and games are essential to the coping process and help create a sense of normalcy for our patients and families.

Due to infection control, we ask that all toys be new, in original packaging and can be easily sanitized. Please do not wrap donations or offer gifts of food. Any and all other gifts will be accepted and distributed to other areas of the John C. Lincoln Health Network.

You are welcome to donate whatever you like. However, to ensure that we are making the best of your donations, below is a list of suggestions that are most helpful to the departments.
